PRODUCT SPECIFICATION

CHEPSTOW
71029 (BENCH)

The Chepstow is a perfect example of a contemporary take on a traditional item. This rugged hand-crafted bench can be made from oak or Iroko and it built to last. Heavy duty solid timber components securely morticed for durability along with the organic curves built into the arms and back legs make this a very eye-catching (and comfortable!) product.

With widths ranging from 1200mm (2 seater) to 3000mm (5 seater) there will be a size that suits every space. The seat height of 450mm is perfect for a pleasantly relaxed experience enjoying the sunshine!
