SOTTO WIRED UP-LIGHTER

SOTTO and BASSO is Italian for "down" and "low". And that is exactly where the light comes from with these luminaires. Although the names suggest that the luminaires are low, the light output is great. The SOTTO is the younger brother of the BASSO and due to its square shape, it's available in several types of wood. Thanks to the shape, the SOTTO can be easily combined with the other products. We wanted to develop a family of luminaires where each family member has its own quality. The quality of the SOTTO is to put others in the spotlight.
