PRODUCT SPECIFICATION

METTRO 201
CYCLE STAND 64201

The Mettro 102 cycle stand is an aesthetically pleasing addition to any public space, campus, office building, or residential complex looking to provide a secure and attractive bike storage solution to accommodate visitors.

The Iroko clad tops add a touch of warmth and elegance to the overall design while also preventing damage to bike frames, ensuring that bicycles are securely held in place without causing any marks or scratches.

PRODUCT FEATURES
- Frame typically manufactured in galvanised steel
- Powdercoated to the desired RAL colour
- Iroko timber slats
- Overall dimensions: H 800 x W 650 x D 75mm
- Capacity for 2 bikes
- 1 year manufacturer's warranty
- 4 week delivery (from approval/payment)

ADDITIONAL OPTIONS
- Alternative material e.g. Aluminium or stainless steel
- Alternative timber e.g. Accoya
- Option for plaques & engraving
- Root fix (+400mm overall height) or bolt down

INSTALLATION GUIDELINES
Foundation & installation guidelines do not replace advice from qualified professionals.

***ROOT FIX GUIDELINES (PLANTED)**
1) Excavate 300x300x300mm (per footing).
2) Position the support posts in excavation.
3) Fill with C40 grade concrete and trowel for water run-off, allowing sufficient space below ground to back fill (step 4).
4) Backfill to finished floor level with required materials.

***BOLT DOWN**
1) Excavate 300x300x300mm (per footing).
2) Fill with C40 grade concrete and level off, allowing sufficient space below ground to backfill (step 5) and leave to set.
3) Position the base plates as required on the concrete pad.
4) Base plates fixed to pad with M12 zinc plated anchor bolts.
5) Backfill to finished ground level with required materials.
Note: A maximum backfill depth of 50mm is recommended for the bolt down variation to achieve a sensible installation height.

ALTERNATIVELY:
Mount directly to existing surface using epoxy-fixed M12 (or similar) anchor bolts through the base plates. It is advised that all hardware is galvanised or stainless steel for the required weather resistance.
