PRODUCT SPECIFICATION

METTRO 113

HEXAGONAL PLANTER/BENCH KIT

What sets this product apart is the combination of the distinctively coordinated Mettro style, along with the endless versatility of the hexagon shape. Two purposes, two styles, two base options, four heights makes 34 options, then there's the colours and slat types…

And being a consistent size they can be interlocked in any configuration and changed according to the requirements. The slats can be timber or recycled plastic so there is no limit to the options available.
